

## **Deutsche Bank Contingent Capital Trust IV**

(a statutory trust formed under the Delaware Statutory Trust Act  
with its principle place of business in New York/New York/U.S.A.)

# Half-Year Financial Report January – June 2012

pursuant to Section 37w of the German Securities Trading Act (*Wertpapierhandelsgesetz*)

## Management Report

Deutsche Bank Contingent Capital Trust IV (the "Trust") was set up to issue Trust Preferred Securities, to issue a Trust Common Security to Deutsche Bank AG (the "Bank") and to use all proceeds derived from such issuances to purchase Class B Preferred Securities issued by Deutsche Bank Contingent Capital LLC IV (the "Company"). Under the Class B Preferred Securities, the Trust is entitled to receive Capital Payments on the liquidation preference amount of € 1,000 per Class B Preferred Security which are payable annually in arrears on May 15 of each year (subject to adjustments if this is not a business day, each a "Payment Date"). Capital Payments payable on each Payment Date will generally accrue from and including the immediately preceding Payment Date up to but excluding the relevant Payment Date at a rate per annum (the "Stated Rate") as described in detail in the listing prospectus dated May 2, 2008 (the "Prospectus").

At issuance, Capital Payments were cumulative, as described in the Prospectus. On October 9, 2008, the Bank notified the Company is making an election to treat all Class B Preferred Securities as consolidated Tier 1 regulatory capital. Pursuant to the LLC Agreement and as described in the Prospectus, the effect of such election is that (beginning with the first day of the Payment Period in which such election occurs) Capital Payments become non-cumulative and that the Trust Preferred Securities will be reclassified to the same extent. Therefore, Capital Payments are now non-cumulative as described in the Prospectus.

Capital Payments on the Class B Preferred Securities are generally paid out of the Company's Operating Profits or from payments received by the Company under the subordinated guarantee given by the Bank in respect of the Class B Preferred Securities. If the Company does not declare (and is not deemed to have declared) a Capital Payment on the Class B Preferred Securities in respect of any Payment Period, the Trust as holder of the Class B Preferred Securities will have no right to receive a Capital Payment on the Class B Preferred Securities in respect of such Payment Period, and the Company will have no obligation to pay a Capital Payment on the Class B Preferred Securities in respect of such Payment Period, whether or not Capital Payments are declared (or deemed to have been declared) and paid on the Class B Preferred Securities in respect of any future Payment Period. Capital Payments on the Class B Preferred Securities will only be authorized to be declared and paid on any Payment Date to the extent that:

- the Company has an amount of Operating Profits for the Payment Period ending on the day immediately preceding such Payment Date at least equal to the amount of such Capital Payments, and
- the Bank has an amount of Distributable Profits for the next preceding fiscal year of the Bank for which audited financial statements are available at least equal to the aggregate amount of such Capital Payments on the Class B Preferred Securities and capital payments or dividends on Parity Securities, if any, pro rata on the basis of Distributable Profits for such preceding fiscal year.

The terms "Operating Profit", "Distributable Profits" and "Parity Securities" are described in detail in the Prospectus.

During the first six months of the fiscal year 2012, the Company and the Bank had sufficient Operating Profit and Distributable profits, respectively to make Capital Payments at the Stated Rate and the Trust received Capital Payments from the Company at such rate and when due under the LLC Agreement. As a consequence, under the Trust Agreement the Trust made Capital Payments on the Trust Preferred Securities at such rate at the scheduled date. The Trust made no payments or other distributions on the Trust Common Security.

Under the Services Agreement, the Bank is obligated, among other things, to provide legal, accounting, tax and other general support services to the Trust, to maintain compliance with all applicable U. S. and German local, state and federal laws, and to provide administrative, recordkeeping and secretarial services for the Trust. The fees and expenses of the Trust and all other obligations of the Trust will be paid by the Bank. During the first six months of the fiscal year 2012, the Trust received all such services and the Bank paid such fees, expenses and obligations as provided in the Services Agreement.

## Outlook

The sources of Capital Payments by the Trust are payments by the Company on the Class B Preferred Securities. The Company has invested substantially all the proceeds from the issuance of its securities in the Initial Obligation issued by the Bank. Under the Initial Obligation interest is paid at the same rate and at the same dates as Capital Payments are scheduled under the Class B Preferred Securities. The Company is also a party to the Services Agreement with the Bank and receives similar services and payment of fees, expenses and obligations as the Trust. The Trust expects that the Company and the Bank will meet their respective obligations under the Class B Preferred Securities, the Initial Obligation, the Services Agreement and the other agreements made in connection with the Trust Preferred Securities.

## (1) Organization

Deutsche Bank Contingent Capital Trust IV (the Trust) is a statutory business trust created on May 15, 2008 under the laws of the State of Delaware. The Trust was incorporated for the sole purpose of issuing EUR 1,000,000,000 of Trust Preferred Securities to investors and EUR 1,000 Trust Common Security to Deutsche Bank AG (DBAG). The proceeds from the issuance of the Trust Preferred Securities and the Trust Common Security were used to purchase all of the Class B Preferred Securities from Deutsche Contingent Capital LLC IV (the Company), a majority-owned consolidated subsidiary. The Trust does not engage in any business other than receiving and holding Class B Preferred Securities, issuing the related Trust Preferred Securities, collecting dividends paid with respect to the Class B Preferred Securities, paying interest to the holders of the Trust Preferred Securities, and performing other obligations required under the Trust's Amended and Restated Trust Agreement dated May 15, 2008 (the Agreement). The financial statements and all transactions entered into by the Trust and the Company are denominated in Euros, the Trust's functional currency.

## (2) Summary of Significant Accounting Policies

The accompanying consolidated financial statements have been prepared from the separate records maintained by the Trust, and may not necessarily be indicative of the consolidated financial condition and consolidated results of operations that would have existed if the Trust had been operated as an unaffiliated entity.

The Trust's consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America, which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates may vary from actual results.

The consolidated financial statements of the Trust include the Company. The Trust consolidates entities in which it has a majority voting interest when the entity is controlled through substantive voting equity interests and the equity investors bear the residual economic risks of the entity. The Trust consolidates those entities that do not meet these criteria when the Trust has significant variable interest(s) that provide it with (1) the power to direct the activities of the entity that most significantly impact its economic performance, and (2) the obligation to absorb losses of the entity or the right to receive benefits from the entity that could potentially be significant to the entity. All material intercompany transactions and accounts have been eliminated.

Pursuant to ASC 480, *Distinguishing Liabilities from Equity*, the Trust Preferred Securities have been classified as liabilities and are described as "Preferred Securities Subject to Mandatory Redemption."

Interest income represents the payments received or receivable from the subordinated note receivable from Deutsche Bank AG New York Branch (DBNY) and interest expense represents payments paid or payable from the issuance of preferred securities subject to mandatory redemption.

## DEUTSCHE BANK CONTINGENT CAPITAL TRUST IV

Notes to Consolidated Financial Statements

UNAUDITED

June 30, 2012

The Trust is a grantor trust and, as such, is a simple trust. Simple trusts must pass through all items of income and deductions to the grantor. Therefore, the Trust has no taxable income and no requirement to record a tax expense.

The trust reports equity interests in the company held by third parties, including related parties, as non-controlling interests.

The subordinated note receivables and the trust preferred securities are recorded at amortized cost.

### (3) Preferred Securities Subject to Mandatory Redemption

On May 15, 2008, the Trust issued EUR 1,000 million of Trust Preferred Securities. The Trust Preferred Securities have no stated maturity, but are redeemable, in whole or in part, at the option of the Trust on May 15, 2018 (the Initial Redemption Date) or after the Initial Redemption Date, on any Class B Payment Date. Payment Dates occur on May 15 of each year. Holders of the Trust Preferred Securities will receive interest payments, on a noncumulative basis, annually in arrears on May 15 of each year, commencing May 15, 2009, at a fixed rate equal to 8.00% per annum. Interest payments will be paid to the extent that the Trust has funds available from interest earned by the Company, a majority-owned consolidated subsidiary.

### (4) Tier I Qualification Election

A bank's regulatory capital is divided into three tiers: core or Tier 1 capital, supplementary or Tier 2 capital, and Tier 3 capital. Core or Tier 1 capital consists primarily of share capital (excluding cumulative preference shares), additional paid-in capital, retained earnings and hybrid capital components, such as noncumulative trust preferred securities. Supplementary or Tier 2 capital consists primarily of cumulative preference shares, profit participation rights, cumulative trust preferred securities and long-term subordinated debt. Tier 3 capital consists mainly of certain short-term subordinated liabilities and it may only cover market price risk.

The Bank of International Settlements (BIS) capital ratio is the principle measurement of capital adequacy for internationally active banks. The ratio as defined under the Basel I framework compares a bank's regulatory capital with its counterparty risks and market price risks. Generally, German banks are required to cover counterparty risks and operational risks with Tier 1 and Tier 2 capital and market price risks with Tier 3 capital.

The Trust Preferred Securities (as described above in Note 3), issued by the Trust on May 15, 2008, were issued in the form of "contingent capital." The issuance of contingent capital allows DBAG a qualification election (the Tier 1 Qualification Election), which at any time prior to the fifth anniversary of the Issue Date (May 15, 2013), DBAG has the option to convert a percentage (in increments of 20%) of each and every Trust Preferred Security from Tier 2 capital to Tier 1 Capital for purposes of the BIS capital ratio calculation. As a result of the Tier 1 Qualification Election, the capital payments (as defined in the Agreement) will be modified from cumulative to noncumulative capital payments from the date of the election on a prospective basis.

## DEUTSCHE BANK CONTINGENT CAPITAL TRUST IV

Notes to Consolidated Financial Statements

UNAUDITED

June 30, 2012

On October 10, 2008 DBAG elected to make the one-time Tier 1 Qualification Election as more fully described above. Accordingly, the capital payment structure was modified from cumulative to noncumulative as of the date of the election.

### (5) Variable Interest Entities

ASC 810, *Consolidation*, requires a company to consolidate entities as the primary beneficiary, when the equity investors lack essential characteristics of a controlling financial interest, if the company has (1) the power to direct activities of the entity that most significantly impact its economic performance, and (2) the obligation to absorb losses of the entity or the right to receive benefits from the entity that could be significant to the entity. The trust has identified its investment in the preferred securities issued by the Company to be variable interests and considers itself as the primary beneficiary, resulting in the consolidation of the company.

### (6) Related-Party Transactions

Related-party transactions consist of the subordinated note receivable dated May 15, 2008, which is with DBNY, an affiliated entity. The note is in the amount of €1,000,001,000 and is perpetual which means it will not have a maturity date. The note bears interest at a fixed rate equal to 8.00% per annum from May 15, 2008. All interest earned on the note is passed through to the holders of the Trust Preferred Securities in the form of interest payments.

The subordinated note receivable shall not be redeemable by DBNY except upon the occurrence of a Tax Event, a Regulatory Event or Investment Company Event (as defined in the Agreement). If DBNY redeems the subordinated note receivable, the Trust must redeem the Trust Preferred Securities under the redemption terms as stated in the Agreement. Any redemption of the Trust Preferred Securities, in whole or in part, will be at an aggregate liquidation amount equal to the aggregate liquidation preference amount of the Class B Preferred Securities purchased or redeemed for an amount equal to €1,000 per Trust Preferred Security and an amount equal to €1,000 per Trust Common Security, plus any additional amounts, if any, plus any accrued and unpaid Capital Payments for the then current Payment Period to, but excluding the date of redemption. In the case of redemption upon the occurrence of a Company Special Redemption Event (as defined in the Agreement), after satisfaction of the claims of the creditors of the Trust, if any, Class B Preferred Securities would be distributed on a pro rata basis to the Holders of the Trust Preferred Securities and the Holder of the Trust Common Security in liquidation of such Holder's interest in the Trust.

In the event of any voluntary or involuntary liquidation, dissolution, winding up or termination of the Trust, the holders of the Trust Preferred Securities at the time outstanding shall, subject to certain limitations, be entitled to receive (a) the Company Capital Securities in an aggregate stated liquidation preference amount (as defined in the Agreement) on such Trust Securities and (b) pro rata based on the respective liquidation preference amounts of the Trust Securities, any other assets of the Trust.

A Tax Event means the receipt by DBAG of an opinion of a nationally recognized law firm or other tax adviser in the United States or Germany, as appropriate, experienced in such matters, to the effect, that, as

## DEUTSCHE BANK CONTINGENT CAPITAL TRUST IV

Notes to Consolidated Financial Statements

UNAUDITED

a result of (i) any amendment to, or clarification of, or change (including any announced prospective change) in, the laws or treaties (or any regulations promulgated thereunder) of the United States or Germany or any political subdivision or taxing authority thereof or therein affecting taxation, (ii) any judicial decision, official administrative pronouncement, published or private ruling, regulatory procedure, notice or announcement (including any notice or announcement of intent to adopt such procedures or regulations) (Administrative Action) or (iii) any amendment to, clarification of, or change in the official position or the interpretation of such Administrative Action or any interpretation or pronouncement that provides for a position with respect to such Administrative Action that differs from the theretofore generally accepted position, in each case, by any legislative body, court, governmental authority or regulatory body, irrespective of the manner in which such amendment, clarification or change is made known, which amendment, clarification or change is effective, or which pronouncement or decision is announced, on or after the date of issuance of the Company Securities and Trust Securities, there is more than an insubstantial risk that (a) the Trust or Company is or will be subject to more than a de minimus amount of taxes, duties or other governmental charges, or (b) the Trust, the Company or an obligor on the Debt Securities would be obligated to pay additional amounts.

A Regulatory Event means that, as a result of the occurrence of any amendment to, or change (including any change that has been adopted but has not yet become effective) in, the applicable banking laws of Germany (or any rules, regulations or interpretations thereunder, including rulings of the relevant banking authorities) or the guidelines of the Basle Committee for Banking Supervision, DBAG is not, or will not be, allowed to treat the Company Capital Securities as supplementary or Tier 2 regulatory capital for capital adequacy purposes on a consolidated basis.

An Investment Company Event means that DBAG will have requested and received an opinion of a nationally recognized U.S. law firm experienced in such matters to the effect that there is more than insubstantial risk that the Company or the Trust is or will be considered an “investment company” within the meaning of the Investment Company Act of 1940, as amended, as a result of any judicial decision, pronouncement or interpretation (irrespective of the manner made known), the adoption or amendment of any law, rule or regulation, or any notice or announcement (including any notice or announcement of intent to adopt such law, rule or regulation) by any U.S. legislative body, court, governmental agency, or regulatory authority, in each case after the date of the Agreement.

DBAG, an affiliated entity, pays all administrative expenses incurred by the Trust and the Company. In addition, DBAG and the Company have entered into a support undertaking for the benefit of the Trust and the holders of the Trust Preferred Securities.

The Common and Class A Preferred Securities of the Company are held by DBAG.

Non-controlling interest comprises shares issued by the Trust and held by DBNY.

### (7) Fair Value of Financial Instruments

ASC 820, *Fair Value Measurements and Disclosure*, requires the disclosure of fair value information about financial instruments for which it is practicable to estimate that value, whether or not the instrument is recognized in the consolidated statement of financial condition. Quoted market prices, when available, are used as the measure of fair value. In cases where quoted market prices are not available, fair values are based on present value estimates of anticipated cash flows.

These derived fair values are significantly affected by assumptions used, principally the timing of future cash flows and the discount rate. Because comparisons to independent market quotes are not possible and assumptions are inherently subjective in nature, the estimated fair values cannot be substantiated and, in many cases, these estimated fair values could not necessarily be realized in an immediate sale or settlement of the instruments.

The following are the estimated fair values of the Trust's financial instruments recognized on the consolidated statement of financial condition:

	<u>June 30, 2012</u>	
	<u>Carrying amount</u>	<u>Fair value</u>
Subordinated note receivable	€ 1,000,001,000	€ 1,016,251,000
Preferred securities subject to mandatory redemption	1,000,000,000	1,016,250,000

**Responsibility Statement by the Regular Trustees**

To the best of our knowledge, and in accordance with the applicable reporting principles, the financial statements of Trust give a true and fair view of the assets, liabilities, financial position and profit or loss of Trust, and the management report of Trust includes a fair review of the development and performance of the business and the position of Trust, together with a description of the principal opportunities and risks associated with the expected development of Trust.

New York/New York, August 13, 2012
